## INTRODUCTION

## INTRODUCTION

### A. BACKGROUND

The 1981 Census of Population was the twelfth major decennial census taken in Canada since 1871. It has enabled Statistics Canada to collect information on the social and economic characteristics of Canadians and the dwellings in which they live.

Basic information concerning age, sex, relationship to Person 1, marital status and mother tongue was obtained for all persons in Canada. In addition, data were collected for each dwelling, concerning both the persons living there (e.g., the number of usual residents) and the dwelling itself (e.g., type of dwelling).

Certain other information was collected from a sample (one-fifth) of the population including data on demographic characteristics such as fertility and mobility status; on social and cultural characteristics such as ethnicity, religion, education, and language spoken in the home; and on economic characteristics such as labour force activity, occupation, industry, place of work and income. Sample data on additional dwelling characteristics, such as period of construction, number of rooms, type of heating equipment, as well as shelter costs, are also available.

Users of Statistics Canada data should be aware of the fact that all information compiled by the agency is subject to the provisions of the Statistics Act which protect organizations and persons from individual disclosure.

### B. STRUCTURE OF THIS DOCUMENT

This document informs data users about forthcoming planned 1981 Census products and services, and outlines the arrangement of these products and services. As final products are released, they will appear in the Statistics Canada Catalogue.

Following is a brief description of the contents of each section of this document.

## Part I - Print Products

### 1. Data Products

1981 Census data products will be available in three series: the National Series, the Provincial Series, and the Profile Series.

- (a) National Series - This series presents data for Canada and the provinces; bulletins are organized to facilitate comparisons at the national level. More detailed data are provided for both national and provincial levels than for lower geographic levels.
- (b) Provincial Series - This series is based on a user-preferred method of data presentation: the data are published in separate bulletins for each province. This eliminates the need to purchase data for all provinces when the user is interested only in data for certain provinces.
- (c) Profile Series - This series is based on the same concept as the Census Tract series in 1971 and 1976. A range of population, housing and socio-economic data is presented for specific geographic areas which, for 1981, will be expanded to cover Census Divisions. Previous geographic areas for this series in 1976 included Federal Electoral Districts, Census Metropolitan Areas, Census Agglomerations, and Census Subdivisions of 5,000 population and over.

### 2. Analytical and Reference Products

Also included in the 1981 Census publication programme are the analytical and reference products, which can be grouped as follows:

- (a) General Reference Products - These comprise general reference material such as the 1981 Census Dictionary, the Summary Guides (for 100% and sample data), the Data Quality publications (for 100% and sample data) and the census Tabulation Guide. A more detailed description of each of these products is found in the appropriate section of this document.
- (b) Geographic Reference Products - These products provide the necessary geographical information for interpreting and analyzing the data from the 1981 Census and earlier censuses.
- (c) Descriptive Series - There are two parts to the descriptive series: (a) the Content Series, which presents analyses of topical socio-economic trends based on data taken from the 1981 Census; and (b) the Metropolitan Atlas Series, which illustrates, via thematic maps, the distribution of various characteristics within 12 census metropolitan areas.

## Part II - Non-print Products

Unpublished 1981 Census data include User Summary Tapes and Microfiche, Geographic Tape Files, Public Use Sample Tapes and Custom Tabulations. A detailed description of each of these products is found in Part II of this document.

The non-print products were designed to expand the user's access to census data by providing statistical tables on magnetic tape, microfiche or on a custom basis. Some of these products can be transformed into print form for a nominal charge, should the user not have access to either a computer or microfiche reader.

### Appendices

Also included is an appendix containing the Guide to Reference Maps, as well as an order form.

#### C. STATISTICS CANADA AT YOUR SERVICE

##### 1. Reference Centres

Statistics Canada has nine reference centres located across Canada. Our staff is trained to help you sift through the millions of 1981 Census facts and to choose only those facts which meet your needs. Do not hesitate to call or visit us at any of our centres listed below.

St. John's  
Statistics Canada,  
Advisory Services,  
3rd Floor,  
Viking Building,  
Crosbie Road,  
St. John's, Newfoundland.  
A1B 3P2  
(709-772-4073)

Halifax  
Statistics Canada,  
Advisory Services,  
3rd Floor,  
1256 Barrington Street,  
Halifax, Nova Scotia.  
B3J 1Y6  
(902-426-5331)

Montréal  
Statistics Canada,  
Advisory Services,  
7th Floor,  
Alexis Nihon Plaza,  
1500 Atwater Avenue,  
Montréal, Quebec.  
H3Z 1Y2  
(514-283-5725)

Ottawa  
Statistics Canada,  
User Services Division,  
Central Inquiries,  
Main Floor,  
R.H. Coats Building,  
Holland Avenue,  
Ottawa, Ontario.  
K1A 0T6  
(613-992-4734)

Toronto

Statistics Canada,  
Advisory Services,  
10th Floor,  
25 St. Clair Avenue East,  
Toronto, Ontario.  
M4T 1M4  
(416-966-6586)

Winnipeg

Statistics Canada,  
Advisory Services,  
Room 602,  
General Post Office,  
266 Graham Avenue,  
Winnipeg, Manitoba.  
R3C 0K4  
(204-949-4020)

Regina

Statistics Canada,  
Advisory Services,  
530 Midtown Centre,  
Regina, Saskatchewan.  
S4P 2B6  
(306-359-5405)

Edmonton

Statistics Canada,  
Advisory Services,  
Suite 215,  
11010-101st Street,  
Edmonton, Alberta.  
T5H 4C5  
(403-420-3027)

Vancouver

Statistics Canada,  
Advisory Services,  
Main Floor,  
1145 Robson Street,  
Vancouver, British Columbia.  
V6E 3W8  
(604-666-3691)

Toll-free access, as listed below, is provided in all provinces and territories for users who reside outside the local dialing area of any of the regional reference centres:

Newfoundland and Labrador	Zenith 0-7037
Nova Scotia, New Brunswick and Prince Edward Island	1-800-565-7192
Quebec	1-800-361-2831
Ontario	1-800-268-1150
Manitoba	1-800-282-8006
Saskatchewan	1(112)800-667-3524
Alberta	1-800-222-6400
British Columbia (South & Central)	112-800-663-1551
Yukon & Northern British Columbia (area served by NorthwEstel Inc.)	Zenith 0-8913
Northwest Territories	Zenith 2-2015

In addition to the reference centres, Statistics Canada publications are available for reference purposes from a large number of libraries throughout Canada, including most provincial legislative libraries and many public and university libraries. A complete historical collection of Statistics Canada material is held by the Statistics Canada Library in Ottawa and is available to the general public for reference purposes.

## 2. 1981 Census Product Prices and Ordering

Users should note that 1981 Census print products are referenced as either catalogued or non-catalogued publications. Catalogued publications have a five-digit catalogue number (e.g., 99-901 for the 1981 Census Dictionary) which appears to the left of the title of the product throughout this document, as well as a price estimate which appears to the right of the title. Non-catalogued publications have a four-character alpha-numeric reference number (e.g., E-479 for the Tabulation Guide) which appears to the left of the publication title and a handling charge estimate which appears to the right of the title.

The total current price for a complete set of catalogued 1981 Census print publications is \$1,700.00. Similarly, package prices are available for four subsets of the catalogued bulletins, as follows:

National Series (Volume 1)	\$ 350.00
Provincial Series (Volume 2)	\$ 550.00
Profile Series (Volume 3)	\$ 550.00
Analytical and Reference Products	\$ 300.00
(catalogued products only)	

While individual prices are subject to change, if you order a complete set or a subset at this price, you will receive it without a price increase.

Individual prices have been set following a page count rule intended to recover our printing and distribution costs - not our data collection and analysis costs - while distributing census data as widely as possible.

Orders for 1981 Census publications may be filled by completing the order form at the back of this document. Orders may also be placed through your local bookstore or any of our local reference centres. All prices noted in this document apply to orders from within Canada. Persons placing orders to be sent outside Canada must add 20% to the quoted price.

At date of printing, information on packaging and ordering for non-print products was not yet in place. For your information, and budgeting purposes, however, the current pricing policy for non-print products is as follows:

Public Use Sample tapes	\$ 300.00 per file
Other products or tapes	\$ 150.00 per file
Microfiche (non-catalogued products)	\$ 1.25 per page (\$5.00 minimum per order)
Custom Tabulations	See section on costs, page 118.

Prices for catalogued publications on microfiche are not yet available.

Further information on prices and ordering will be provided via the 1981 Newsletter and Promotion Programme.

### 3. The 1981 Census Newsletter and Promotion Programme

To help existing and prospective census data users broaden their knowledge and interest in 1981 Census data, a periodic newsletter and a promotion programme are planned. Through our newsletter, promotional literature, and information seminars, we hope to keep you well informed of our census products, their content, applications, and planned availability.

Telephone or write your nearest Statistics Canada reference centre and inform us of your mailing address if you would like to receive these mailings.

VOLUME 2: PROVINCIAL SERIES

The Provincial Series consists of census data published separately for each province and territory. In order to avoid repetition, the tables to be produced have been grouped into "Parts" and are listed only once for each part. A separate table will, however, be produced for each province and territory (except where otherwise indicated). All the tables in each part, in a given province or territory, will then be aggregated into a single bulletin. The catalogue numbers and prices of the individual bulletins follow each set of table descriptions.

Note, however, that under certain table numbers, one or more symbols may appear, depending on the table description. The following information pertains to the use of these symbols:

- \* - this table is not applicable for the Yukon and Northwest Territories.
- @ - this table is not applicable for the province of Prince Edward Island.
- + - this table is not applicable for the provinces of Newfoundland, Manitoba, Saskatchewan and Alberta.

## VOLUME 2: POPULATION - SAMPLE DATA

### ECONOMIC CHARACTERISTICS

Data in this part are for economic characteristics such as labour force activity, occupation, industry and employment income. Labour force activity data are cross-classified by age/age groups, sex, marital status, schooling and other labour force characteristics, for various geographic areas. Occupation and Industry data are also cross-classified by such characteristics as age/age groups, sex, and marital status as well as major/minor groups for occupation and major groups/classes for industry. Employment income data are also cross-classified by sex as well as other economic characteristics. All data are shown for various geographic areas.

#### Labour Force Activity

Table 1: Labour Force Activity of Population 15 Years and Over by Sex, Age Groups and Marital Status, for Census Divisions, 1981

Table 2: Labour Force Activity of Population 15 Years and Over by Sex, Age Groups and Marital Status, for Census Metropolitan Areas and Census Agglomerations of 50,000 Population and Over, 1981

Table 3: Labour Force Activity of Population 15 Years and Over by Sex, for Census Subdivisions of 10,000 Population and Over, 1981

Table 4: Labour Force Activity of Population 15 Years and Over by Sex and (a) Highest Level of Schooling and (b) School Attendance, for Census Divisions, 1981

Table 5: Labour Force Activity of Population 15 Years and Over by Sex, \*<sup>(d)</sup> Age Groups and (a) Highest Level of Schooling and (b) School Attendance, for Census Metropolitan Areas, 1981

Table 6: Population 15 Years and Over who Worked in 1980 by Number of Weeks Worked in 1980, and Whether These Weeks Were Mostly Full-time/Part-time by Sex and Age Groups, for Census Divisions, 1981

Table 7: Population 15 Years and Over who Worked in 1980 by Number of \* Weeks Worked in 1980, and Whether These Weeks Were Mostly Full-time/Part-time by Sex and Age Groups, for Census Metropolitan Areas and Census Agglomerations of 50,000 Population and Over, Urbanized Core and Fringe, 1981

Table 8: Population 15 Years and Over who Worked in 1980 by Number of Weeks Worked in 1980, and Whether These Weeks Were Mostly Full-time/Part-time by Sex, for Census Subdivisions of 10,000 Population and Over, 1981

#### Occupation

Table 9: Labour Force 15 Years and Over by Detailed Occupation and Sex, Showing Age Groups and Highest Level of Schooling, Provinces, 1981

Table 10: Labour Force 15 Years and Over by Detailed Occupation and Sex, Showing (a) Highest Degree, Certificate or Diploma by Age Groups, (b) Class of Worker and (c) Marital Status, Provinces, 1981

**PART I**

**PRINT PRODUCTS**

**2. ANALYTICAL AND REFERENCE PRODUCTS**

GENERAL REFERENCE PRODUCTS

99-901	<u>1981 Census Dictionary</u>	\$12.00
--------	-------------------------------	---------

This document contains definitions of variables and terms used in 1981 Census data products (publications, tapes and microfiche). The dictionary indicates the previous censuses for which data on a particular variable are available, the variable universe, the responses on the 1981 Census data base and any explanatory remarks that may be helpful. (Also available on microfiche)

✓ 99-902	<u>Summary Guide - Total Population</u>	\$ 9.50
99-903	<u>Summary Guide - Sample Population</u>	\$ 9.50

These summary guides will include a list of tables available in publications and on microfiche, as well as an index of tables which appear in the publications. They will also include tables showing response rates and Total Standard Error (TSE) estimates for various geographic size groups, as well as explanatory notes, which may be required to highlight anomalies in the data. (Also available on microfiche)

99-904	<u>Data Quality - Total Population</u>	\$12.00
99-905	<u>Data Quality - Sample Population</u>	\$ 9.50

These data quality publications will contain quantitative measures of coverage error, response error, processing error and sampling/weighting error (where applicable). They will also contain a summary of census methodology, including a description of special procedures which could affect the quality of data for particular variables. Qualitative statements, as well, on the 1981 Census data quality will appear in these bulletins. (Also available on microfiche)

E-479	<u>Tabulation Guide - Interim</u>	\$19.00
E-480	<u>Tabulation Guide - Second Edition</u>	\$19.00

These documents contain specific information on tabulations available from the 1981 Census - the universe for each table, the geographic areas, the tabulation legend, the reference number and the media (print, tape, microfiche) for each table. (Also available on microfiche)

## GEOGRAPHIC REFERENCE PRODUCTS

- |         |   |         |
|---------|---|---------|
| ✓99-906 | <u>Reference Maps - Census Metropolitan Areas<br/>and Census Agglomerations</u> | \$ 9.50 |
|---------|---|---------|

This bulletin contains a series of maps which show the components of census metropolitan areas and census agglomerations.

- |         |   |         |
|---------|---|---------|
| ✓99-907 | <u>Reference Maps - Census Divisions<br/>and Subdivisions</u> | \$ 7.50 |
|---------|---|---------|

This bulletin contains a series of maps which show the boundaries of census divisions and subdivisions.

- ✓99-908 Population Counts, 1976 and 1981 - Federal Electoral Districts \$ 8.50

This bulletin contains the final population counts of the 1981 Census for each of the 282 federal electoral districts established under the Representation Order of 1976. Two tables are presented: the first contains 1981 population counts, and comparative population counts from the 1976 Census, by federal electoral district; the second table contains 1981 counts by census subdivision (or parts of subdivisions) within each federal electoral district. (Also available on microfiche)

## Enumeration Area Reference Lists

Each of the bulletins listed below shows linkages between the basic unit of data collection, the enumeration area, and the various standard geographic areas of data presentation (i.e., census geostatistical area). The relationship between the census geostatistical areas is also shown. (Also available on microfiche)

- |          |  |         |
|----------|--|---------|
| ✓ 99-909 | Census Divisions and Subdivisions, Urban and Rural - Atlantic Provinces                    | \$ 7.50 |
| ✓ 99-910 | Census Divisions and Subdivisions, Urban and Rural - Quebec                                | \$ 8.50 |
| ✓ 99-911 | Census Divisions and Subdivisions, Urban and Rural - Ontario                               | \$ 7.50 |
| ✓ 99-912 | Census Divisions and Subdivisions, Urban and Rural - Western Provinces and the Territories | \$ 8.50 |

✓ 99-913	Census Tracts	\$ 9.50
✓ 99-914	Provincial Census Tracts - Atlantic Provinces	\$ 7.50
✓ 99-915	Provincial Census Tracts - Quebec	\$ 8.50
✓ 99-916	Provincial Census Tracts - Ontario	\$ 7.50
✓ 99-917	Provincial Census Tracts - Western Provinces and the Territories	\$ 9.50
✓ 99-918	Census Metropolitan Areas and Census Agglomerations, Components	\$ 7.50
✓ E-481 99x903	<u>Equivalent 1981 and 1976 Enumeration Areas</u>	\$17.00

This document shows geographically equivalent enumeration areas for 1981 and 1976 by province. (Also available on microfiche and tape)

#### Place Name Reference Lists

These documents list all census divisions, census subdivisions and unincorporated places in Canada for which 1981 population is reported, as well as providing 1981 population counts and geographic references. There is a Place Name Reference List for each of the following areas:

E-482 99x904	(1) Atlantic Provinces	\$ 5.00
E-483 99x905	(2) Quebec and Ontario	\$ 6.00
✓ E-484 99x906	(3) Western Provinces and the Territories	\$ 5.00

(Also available on microfiche and tape)

E-485	<u>Census Subdivisions in Decreasing Population Order</u>	\$ 5.00
-------	---	---------

This document consists of two tables. The first table presents 1981 population counts for all census subdivisions in Canada in decreasing population order. The second table presents the same counts for all census subdivisions in alphabetical order. Both tables show the national population rank order of each census subdivision. (Also available on microfiche)

✓ E-486	<u>Population and Dwelling Counts -</u>	\$17.00
15x902	<u>Enumeration Areas by Federal Electoral District and Province</u>	

This document lists all census enumeration areas by federal electoral district and by province, with the 1981 population and dwelling counts for these areas. (Also available on microfiche)

Final Population Counts, 1976 and 1981 - Census Tracts

These documents show 1976 and 1981 population counts for census tracts, based on the 1981 area, as well as the 1976-1981 population percentage change. The population counts for census tracts are accompanied by reference maps showing the boundaries of the 1981 Census tracts, for each of the following census metropolitan areas and census agglomerations:

E-487	(1)	Brantford	\$ 3.50
E-488	(2)	Calgary	\$ 3.50
E-489	(3)	Chicoutimi-Jonquière	\$ 3.50
E-490	(4)	Edmonton	\$ 3.50
E-491	(5)	Guelph	\$ 3.50
E-492	(6)	Halifax	\$ 3.50
E-493	(7)	Hamilton	\$ 3.50
E-494	(8)	Kamloops	\$ 3.50
E-495	(9)	Kelowna	\$ 3.50
E-496	(10)	Kingston	\$ 3.50
E-497	(11)	Kitchener	\$ 3.50
E-498	(12)	London	\$ 3.50
E-499	(13)	Moncton	\$ 3.50
E-500	(14)	Montréal	\$ 3.50
E-501	(15)	North Bay	\$ 3.50
E-502	(16)	Oshawa	\$ 3.50
E-503	(17)	Ottawa-Hull	\$ 3.50
E-504	(18)	Peterborough	\$ 3.50
E-505	(19)	Prince George	\$ 3.50
E-506	(20)	Québec	\$ 3.50
E-507	(21)	Regina	\$ 3.50
E-508	(22)	St. Catharines-Niagara	\$ 3.50
E-509	(23)	St. John's	\$ 3.50
E-510	(24)	Saint John	\$ 3.50
E-511	(25)	Sarnia	\$ 3.50
E-512	(26)	Saskatoon	\$ 3.50
E-513	(27)	Sault Ste. Marie	\$ 3.50
E-514	(28)	Sherbrooke	\$ 3.50
E-515	(29)	Sudbury	\$ 3.50
E-516	(30)	Thunder Bay	\$ 3.50
✓E-517	(31)	Toronto	\$ 3.50
E-518	(32)	Trois-Rivières	\$ 3.50
E-519	(33)	Vancouver ,	\$ 3.50
E-520	(34)	Victoria	\$ 3.50
E-521	(35)	Windsor	\$ 3.50
E-522	(36)	Winnipeg	\$ 3.50

(Available on microfiche and tape - maps excluded)

✓ E-523 Final Population Counts, 1976 and 1981 - Census Metropolitan \$ 3.50  
Areas and Census Agglomerations and Components

This document shows 1976 and 1981 population counts based on the 1981 area, as well as the 1976-1981 percentage change in population, for census metropolitan areas, and census agglomerations and components. (Also available on microfiche and tape)

Street Indexes

These documents provide information linking street data (such as name, type, direction and odd/even address number ranges) to geographic data (such as municipality, federal electoral district, enumeration area and census tract). There is a 1981 Street Index and a Post-census Street Index for each of the following cities:

E-524	(1) Brantford	\$ 6.00
E-525	(2) Calgary	\$ 7.00
E-526	(3) Chicoutimi-Jonquière	\$ 6.00
E-527	(4) Edmonton	\$ 7.00
E-528	(5) Guelph	\$ 6.00
E-529	(6) Halifax	\$ 6.00
E-530	(7) Hamilton	\$ 7.00
E-531	(8) Kingston	\$ 6.00
E-532	(9) Kitchener	\$ 7.00
E-533	(10) London	\$ 6.00
E-534	(11) Montréal	\$19.00
E-535	(12) Ottawa	\$ 7.00
E-536	(13) Hull	\$ 6.00
E-537	(14) Peterborough	\$ 6.00
E-538	(15) Québec	\$ 7.00
E-539	(16) Regina	\$ 6.00
E-540	(17) St. Catharines-Niagara	\$ 6.00
E-541	(18) St. John's	\$ 6.00
E-542	(19) Saint John	\$ 6.00
E-543	(20) Sarnia	\$ 6.00
E-544	(21) Saskatoon	\$ 6.00
E-545	(22) Sault Ste. Marie	\$ 6.00
E-546	(23) Sherbrooke	\$ 6.00
E-547	(24) Sudbury	\$ 6.00
E-548	(25) Thunder Bay	\$ 6.00
E-549	(26) Toronto	\$19.00
E-550	(27) Trois-Rivières	\$ 6.00
E-551	(28) Vancouver	\$14.50
E-552	(29) Victoria	\$ 6.00
E-553	(30) Windsor	\$ 6.00
E-554	(31) Winnipeg	\$ 9.50
E-555	(32) Saint-Jérôme	\$ 6.00
E-556	(33) Oshawa	\$ 6.00

(Available on microfiche and tape)

## 1981 CENSUS CONTENT SERIES

Titles of the publications in this series are listed below as well as their catalogue numbers.

Publications	Catalogue numbers
Canada's Changing Population Distribution	99-931 ✓
The Elderly in Canada	99-932 ✓
Canada's Lone-parent Families	99-933 ✓
Living Alone	99-934 ✓
Language in Canada	99-935
Canada's Immigrants	99-936 ✓
Canada's Native People	99-937 ✓
Schooling in Canada	99-938 ✓
Canada's Young Family Home-owners	99-939 ✓
Women in the Work World	99-940 ✓
Changes in Income in Canada: 1970-1980	99-941 ✓
Urban Growth in Canada	99-942 ✓

Each publication can be obtained for \$5.50 in Canada, \$6.60 elsewhere. Instructions on how to order are found on the inside cover of the publication.

## DESCRIPTIVE SERIES

### Metropolitan Atlas Series

These bulletins employ 1981 Census data to depict, in the form of thematic maps and graphics, the distribution of various census characteristics within the following census metropolitan areas:

✓99-919	Toronto	\$ 8.50
✓99-920	Montréal	\$ 8.50
✓99-921	Vancouver	\$ 8.50
✓99-922	Winnipeg	\$ 8.50
✓99-923	Halifax	\$ 8.50
✓99-924	Ottawa-Hull	\$ 8.50
✓99-925	Edmonton	\$ 8.50
✓99-926	Québec	\$ 8.50
✓99-927	Calgary	\$ 8.50
✓99-928	Hamilton	\$ 8.50
✓99-929	Regina	\$ 8.50
✓99-930	St. John's	\$ 8.50

### Content Series

These bulletins will contain data on major social trends and characteristics indicated by the 1981 Census data. Each publication includes data presented in the form of tables or charts and a description of the main characteristics and trends observed. The following topics have been selected (note that these are not final titles):

✓99-931	Canada's Population Distribution	\$ 5.50
✓99-932	Canada's Aged Population <i>Elderly in Canada</i>	\$ 5.50
✓99-933	Lone-parent Families	\$ 5.50
✓99-934	Non-family Persons <i>Living alone</i>	\$ 5.50
✓99-935	Language Use in Canada	\$ 5.50
99-936	Immigrants as a Segment of the Changing Mosaic	\$ 5.50
99-937	Native Peoples and Métis	\$ 5.50
✓99-938	Educational Attainment in Canada <i>Schooling in Canada</i>	\$ 5.50
✓99-939	Canada's Young Family Homeowners	\$ 5.50
99-940	Canada's Working Women	\$ 5.50
✓99-941	Changes in Incomes, 1971-1981 <i>In Canada</i>	\$ 5.50
✓99-942	Trends in Canadian Urbanism <i>Urban Growth in Canada</i>	\$ 5.50

## PART II

### NON-PRINT PRODUCTS

#### 1. USER SUMMARY TAPES AND MICROFICHE

### USER SUMMARY TAPES AND MICROFICHE

The User Summary Tape programme provides a series of tables pertaining to demographic, housing, household, family, labour and income characteristics. Tapes usually provide more detail than is provided in the printed bulletins. Summary tapes allow users to aggregate the tabulations either on a geographic basis or by combining data cells. The tapes contain tabulated data and not individual census records. Documentation describing the contents of summary tape files will be available in both official languages.

A separate tape series will be produced for the short form questionnaire (2A - 100% of the total population) and the long form questionnaire (2B - 20% of the total population). Each of these series will include tables for the following geographic levels:

- (1) Enumeration Area (EA) - approximately 41,200 EAs
- (2) Census Subdivision (CSD) - 5,710 CSDs
- (3) Census Tract (CT)/Provincial Census Tract (PCT) - 3,302 CTs and 1,786 PCTs
- (4) Special Series (SP)

The Special Series has been added for the 1981 Census. It includes tables of varying geographic delineations such as Canada, provinces, urban size groups, urban, rural non-farm and rural farm, census metropolitan areas and census agglomerations, urbanized core and fringe with components, etc. Tables for which there has been widespread demand but which were too detailed to be incorporated in the print products are included in this series.

In addition, the entire Profile Series (Vol.3) of the data products will be repeated on User Summary Tapes.

Information on the geographic organization and tables contained in each file, costs, and how to order will be released at a later date. The detailed breakdown of each characteristic variable in terms of its class interval will be available in the Tabulation Guide. Tabulations provided on User Summary Tapes will also be made available on microfiche, unless the number of microfiche required for a given table is excessive. It is also planned to replicate the majority of the three volumes of data products (the National, Provincial, and Profile Series) on microfiche.

Each tabulation on microfiche will be either bilingual or available separately in English or French.

SERIES A - 100% DATA

Age, Sex and Marital Status

1. Population by single years of age and sex, 1981
2. Population by marital status and sex, 1981
3. Population by marital status, age groups and sex, 1981

Cultural Characteristics

4. Population by mother tongue and sex, 1981

Occupied Private Dwellings

5. Occupied private dwellings by tenure, showing structural type, 1981

Private Households

6. Private households by number of persons per household, 1981
7. Census family households by number of persons per household, 1981
8. Private households by type of household, 1981
9. Private households by number of persons per household, showing age groups of household maintainer and sex, 1981
10. Private households by sex of household maintainer, showing marital status, 1981
11. Private households by number of census families, 1981

236.	Population 15 years and over by highest level of schooling, showing school attendance and sex, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x
237.	Population 15 years and over by school attendance and sex, showing highest degree, certificate or diploma, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x
238.	Population 15 years and over by highest level of schooling and sex, showing total counts of trades and other non-university certificates or diplomas, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x
239.	Population 15 years and over attending school full-time by selected social characteristics,(7) showing highest level of schooling, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x
240.	Population 15 years and over not attending school full-time by selected social characteristics(8), showing highest level of schooling, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x

---

(7) Place of birth, period of immigration by age at immigration, ethnic origin, religion, mother tongue, home language, official language.

(8) Place of birth, period of immigration, period of immigration by age at immigration, ethnic origin, religion, mother tongue, home language, official language.

		CSD	EA	CT	SP
241.	Population 15 years and over by sex and school attendance, showing highest grade of elementary or secondary, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x
242.	Population 15 years and over by sex and school attendance, showing years of university, for census metropolitan areas and census agglomerations, urbanized core and fringe with components, 1981				x
243.	Population 15 years and over attending school full-time by highest level of schooling, showing age groups and sex, for census divisions, 1981				x
244.	Population 15 years and over not attending school full-time by age groups and sex, showing highest level of schooling, for census divisions, 1981				x
245.	Population 15 years and over by highest degree, certificate or diploma, combined with trade and other non-university certificates or diplomas, showing school attendance and sex, for Canada and provinces, 1981				x
<u>Labour Force Activity</u>					
246.	Labour force activity of the female population 15 years and over by highest level of schooling, marital status, age groups and presence of children, for Canada and provinces, 1981				x
247.	Labour force activity of population 15 years and over by sex, marital status and single years of age, for Canada and provinces, 1981				x

Labour Characteristics

248. Experienced labour force 15 years and over by detailed industry, by detailed occupation, by class of worker, by sex, Canada and provinces, 1981(9)
249. Experienced labour force 15 years and over by detailed industry, by detailed occupation, by class of worker, by sex, Canada and provinces, 1981(9)

Dwellings

250. Occupied private dwellings by tenure and structural type, showing condition of dwelling, census subdivisions of 5,000 population and over, 1981
251. Occupied private dwellings by length of occupancy and tenure, showing condition of dwelling, census subdivisions of 5,000 population and over, 1981
252. Occupied private dwellings by period of construction and structural type, showing condition of dwelling, census subdivisions of 5,000 population and over, 1981
253. Owner-occupied private non-farm dwellings by structural type and average household income, showing value of dwelling, census subdivisions of 5,000 population and over, 1981
254. Occupied private dwellings by number of persons in household, showing number of rooms, census subdivisions of 5,000 population and over, 1981

- (9) Occupation for Table 248 is based on the 1980 classification; Table 249 is based on the 1971 classification. Both tables for industry are based on the 1970 classification.

In Table 248, the "Unspecified or Undefined" and the "Not Stated" are assigned at the division and major group level for industry and the major and minor group level for occupation. In Table 249, the "Unspecified or Undefined" and the "Not Stated" are not assigned but shown as a division total for industry and a major group total for occupation.

**PART II**

**NON-PRINT PRODUCTS**

**2. GEOGRAPHIC TAPE FILES**

## GEOGRAPHIC TAPE FILES

### Land Area and Population Tape Files

Four tape files (one each for 1981 census divisions, census subdivisions, census tracts and provincial census tracts) present 1981 Census of Canada final population counts and land areas (in square kilometres), as well as the 1976 Census of Canada final population counts adjusted to the 1981 census geographic areas.

### Geography Tape File

This file assigns to each 1981 census enumeration area (the basic geographic unit of census data collection) all higher geographic levels by codes and names. It includes all standard geographic codes, and also locates each enumeration area centroid according to Universal Transverse Mercator (UTM) coordinates and Lambert coordinates, as well as by latitude and longitude. Final population counts for all enumeration areas are also presented.

### Area Master Files

The Area Master Files (AMFs) contain a logical representation of all city streets and other selected features (such as railroad tracks, rivers, and municipal boundaries) in machine-readable form. The AMFs geographically reference every street, address range, block-face and centroid coordinate in the coverage area. An AMF is available for most centres with a population of 50,000 or more.

### User Summary Tape Support Files

These tape files contain the geographic identifiers for all records on User Summary Tapes. The geographic identification of each record on the various User Summary Tapes is obtained from the Geography Tape File and forms an integral part of each User Summary Tape. However, the UST support files are available separately.

CARTLIBs

CARTLIBs are digital cartographic libraries of the boundaries and related features of various geostatistical areas, stored on magnetic tape files for use by computer mapping programmes. One type of tape file defines the boundaries of these areas, and another acts as an index for the boundary files and lists additional information for each area, such as land area, population, geographic codes, names, and centroids.

**PART II**

**NON-PRINT PRODUCTS**

**3. PUBLIC USE SAMPLE TAPES**

PUBLIC USE SAMPLE TAPES

The Public Use Sample Tapes (PUSTs) are planned as micro-data files along the lines of the 1971/76 tapes. The exact details are still being discussed, but preliminary indications are that the files will consist of three separate universes; that is, persons, families and households. The tapes are expected to be available around April 1984.

Each of the three files mentioned will include as many variables and classes within variables as possible, the major constraint being to safeguard confidentiality. The geographic detail, too, will be determined in conjunction with the confidentiality consideration. Sample size will be subject to considerations of cost, number of tapes needed per universe, and the 1971/76 experience.

**PART II**

**NON-PRINT PRODUCTS**

**4. CUSTOM TABULATIONS**

### CUSTOM TABULATIONS

Insofar as confidentiality constraints permit, Statistics Canada will produce for users, at cost, custom tabulations from the 1971, the 1976 and the 1981 Censuses of Population and Housing which are not already included in the main tabulation programme. A custom tabulation is defined as any tabulation not in the main tabulation programme which requires accessing one of the census micro-data bases. Types of tabulations which could require this micro-data access are:

- (a) a new variable or a new distribution of an existing variable;
- (b) a new cross-classification of variables;
- (c) a different geographic area;
- (d) a different output medium;
- (e) any combination of the above.

#### New Variables on New Distributions

Statistics Canada can create new custom variables for users that are derived from existing data base variables (such as language assimilation, occupation social prestige rating, marketing indices, etc.) and we may create new distributions of existing variables (more detailed distributions or different collapsing).

#### New Cross-classifications of Variables

Using an existing tabulation as a guide, a new custom tabulation could be produced where one or more variables have been added or substituted.

#### Different Geographic Areas

Any tabulation which has been produced for any given geographic area can be retrieved for any other geographic area, subject to confidentiality and reliability constraints.

We are able to retrieve data from a variety of types of geographic areas:

- (a) standard geographic areas as defined by the census, such as: provinces, census divisions and subdivisions, census tracts, federal electoral districts, enumeration areas, etc.;
- (b) standard geographic areas from other censuses;

(c) non-standard areas (areas defined by user). These are further broken down into three types:

- (1) arithmetic manipulation of standard areas (+, -);
- (2) simple shapes about a point (circle, square);
- (3) polygons (many sided shapes) which require digitizing.

#### Output Mediums

Statistics Canada is able to produce custom tabulations with various output mediums such as print copy, machine-readable magnetic tape, microform (microfiche, microfilm) and thematic maps.

#### Confidentiality

In order to maintain the confidentiality of individuals who have answered the census questionnaire, we have implemented a system of random rounding on the last digit of every cell of every tabulation we produce for use outside of Statistics Canada. Additionally, when we are preparing tabulations involving income, individual cells of a tabulation below a given threshold count may be suppressed. Further information on random rounding and data suppression is available from Statistics Canada.

#### Reliability

Statistics Canada will reserve the right to refuse to tabulate or to suppress portions of any tabulation which we feel is not reliable.

#### Costs

Charges for custom tabulations are dependent on the full costs involved in their preparation, both manpower and machine costs. The components of these costs are geocoding costs (for non-standard areas requiring digitizing) and retrieval costs. Requests will be costed individually and could range from about fifty dollars to thousands of dollars.

#### Interested in More Information?

Call or visit your local Statistics Canada reference centre. They will be pleased to discuss your data requirements in detail.

## INTRODUCTION

This is a guide to the reference maps of the 1981 Census of Canada. The reference maps show the boundaries of all census geostatistical areas: that is, the geographic areas for which census data are collected and published. The geostatistical areas shown on the reference maps include census divisions, census subdivisions (such as cities, towns and villages), federal electoral districts, enumeration areas, census metropolitan areas, census agglomerations, census tracts, and provincial census tracts. The reference maps are available as individual map sheets, often at a large scale, or are included in published bulletins, generally at a smaller scale with less geographic detail.

These maps are designed as reference tools and permit users to locate and identify census geostatistical areas and relate statistical data to their corresponding geographic area.

If users find the census geostatistical areas insufficient for their needs, then these maps may be used to formulate special requests for census data based on their own specific geographic areas of interest, e.g., school zones, traffic zones, police precincts, health districts, neighbourhoods, etc.

If these special user-defined areas comprise several complete census geostatistical areas (e.g., enumeration areas, census tracts, census subdivisions), then by utilizing these maps, users can identify the relevant groups of census areas in order to tabulate their own data or formulate a special request to have Statistics Canada tabulate census data reflecting these special areas.

If the user-defined areas do not respect any census-defined areas, then users may wish to have Statistics Canada retrieve census data using the Geographically Referenced Data Storage and Retrieval (GRDSR) system or Geocoding as it is also known. For further information regarding this service, users should direct inquiries to Census Customer Services, Statistics Canada, Ottawa, Ontario, K1A 0T6.

This guide describes the kinds of census geostatistical areas shown on the map and indicates the map series that can be best used to locate these geostatistical areas. The guide also describes each map series, and the medium(s) in which each series is available, provides users with directions on how to order maps and, as well, furnishes the prices of maps.

## TYPES OF CENSUS GEOSTATISTICAL AREAS ON REFERENCE MAPS

PROVINCES and TERRITORIES are the major political divisions of Canada. From a statistical point of view they are the basic units for which data are tabulated and cross-classified.

Each province is identified by a two-digit code (e.g., Newfoundland 10). The first digit identifies the region. The ten provinces and two territories have been grouped into six regions as follows:

- 1 - Atlantic Provinces
- 2 - Quebec
- 3 - Ontario
- 4 - Prairie Provinces
- 5 - British Columbia
- 6 - Northern Territories

The second digit identifies the province or territory. They have been numbered 0 to 9 from east to west:

- 0 - Newfoundland, Yukon
- 1 - Prince Edward Island, Northwest Territories
- 2 - Nova Scotia
- 3 - New Brunswick
- 4 - Quebec
- 5 - Ontario
- 6 - Manitoba
- 7 - Saskatchewan
- 8 - Alberta
- 9 - British Columbia

The boundaries of provinces and territories are shown on the G81-10 map series.

A FEDERAL ELECTORAL DISTRICT (FED) is any territorial unit entitled to return a member to serve in the House of Commons. There are 282 FEDs in Canada based on the 1976 Representation Order. The boundaries of FEDs need conform to provincial boundaries only. Each FED is subdivided into enumeration areas for the purpose of census-taking.

Each FED is identified by a five-digit code. The first two digits identify the province and the last three digits identify the FED within the province (e.g., 35001 - Algoma - Ontario).

Each map sheet in the G81-18 series illustrates one FED. An index map of FEDs (1976 Representation Order) may be found in the 1981 Census bulletin, Catalogue No. 99-908.

CENSUS DIVISION (CD) refers to the general term applying to counties, regional districts, regional municipalities and five other types of geographic areas made up of groups of census subdivisions. In Newfoundland, Manitoba, Saskatchewan and Alberta, the term describes areas that have been created by Statistics Canada in cooperation with the provinces as an equivalent for counties.

The G81-10 map series shows the boundaries of CDs. An index map of CDs is included in the Reference Maps bulletin, Catalogue No. 99-907.

CENSUS SUBDIVISION (CSD) refers to the general term applying to municipalities, Indian Reserves, Indian Settlements and unorganized territories. In Newfoundland, Nova Scotia and British Columbia, the term also describes geostatistical areas that have been created by Statistics Canada in cooperation with the provinces as an equivalent for municipalities.

The CSD boundaries for each province are included in the Reference Maps bulletin, Catalogue No. 99-907. In addition to these index maps, the boundaries of CSDs are shown on the G81-10 series and, for the greatest degree of detail, can also be found on the G81-12 and G81-14 series.

CENSUS CONSOLIDATED SUBDIVISION (CCS) refers to a geographically contiguous group of census subdivisions. Two rules are applied in delineating census consolidated subdivisions: (1) all census subdivisions smaller than 25 square kilometres are grouped with a larger subdivision; and (2) if a census subdivision greater than 25 square kilometres is surrounded on more than half its perimeter by another subdivision, it is included as part of the CCS formed by the other subdivision; if not, the census subdivision forms a CCS on its own.

The boundaries of CCSs are shown in the Reference Maps bulletin, Catalogue No. 99-907 and on a set of maps produced by the Census of Agriculture and available to users on demand. Users wishing greater detail can use the G81-12 series in conjunction with the 1981 Enumeration Area Reference Lists (Catalogue Nos. 99-909 to 99-918).

CENSUS METROPOLITAN AREA (CMA) refers to the main labour market area of an urbanized core (or continuously built-up area) having 100,000 or more population. CMAs are created by Statistics Canada and are usually known by the name of the urban area forming their urbanized core. They contain whole municipalities (or census subdivisions). CMAs are comprised of (1) municipalities completely or partly inside the urbanized core; and (2) other municipalities if (a) at least 40% of the employed labour force living in the municipality works in the urbanized core, or (b) at least 25% of the employed labour force working in the municipality lives in the urbanized core.

CENSUS AGGLOMERATIONS (CAs) are defined using the same criteria as CMAs; however, the urbanized core contains between 10,000 and 99,999 population.

The boundaries of CMAs and CAs are shown in the Reference Maps bulletin, Catalogue No. 99-906, and on the map series G81-15. The CMA boundaries are also shown on maps of the series G81-10.

CENSUS TRACT (CT) refers to a permanent small census geostatistical area established in large urban communities with the help of local specialists interested in urban and social science research. Census tracts are reviewed and approved by Statistics Canada according to the following criteria:

- (a) the boundaries must follow permanent and easily recognized lines on the ground;
- (b) the population must be between 2,500 and 8,000 with a preferred average of 4,000 persons, except for census tracts in the central business district, major industrial zones, or in peripheral rural or urban areas that may have either a lower or higher population;
- (c) the area must be as homogeneous as possible in terms of economic status and social living conditions; and
- (d) the shape must be as compact as possible.

All census metropolitan areas, all census agglomerations with a city having a population of 50,000 or more, and all other cities of at least 50,000 population at the previous census are eligible for a census tract programme.

Reference maps of CTs are included in the Census Tract bulletins (Catalogue Nos. 95-905 to 95-940 and 95-946 to 95-981). These maps are also available as separate map sheets. Detailed maps of each individual CT are available in the G81-13 and G81-13A map series.

PROVINCIAL CENSUS TRACT (PCT) refers to a permanent small census geostatistical area of rural and/or urban type. PCTs exist in the area not included in the Census Tract Programme. Populations of PCTs generally vary between 3,000 and 8,000 with a preferred average of 5,000. Boundaries, as much as possible, follow permanent physical features and/or geographic units suggested by the provinces. The G81-21 map series shows the boundaries of all PCTs.

ENUMERATION AREA (EA) refers to the spatial unit usually canvassed by one Census Representative. It is defined according to the following criteria: (1) Population -- the number of households in an enumeration area varies between a maximum of 375 households in large urban areas to a minimum of 125 in rural areas; (2) Limits -- an enumeration area, being the building block of all geostatistical areas, never cuts across any geographic area recognized by the census. Moreover, enumeration area boundaries are such that the Census Representative will be able to locate them without difficulty as, for example, streets, roads, railways, rivers and lakes. Enumeration areas are normally the smallest geographic unit for which census data are available..

Each EA is identified by a three-digit number that is unique within each federal electoral district (e.g., FED 35001 EA 001).

For the 1981 Census, Canada was divided into approximately 41,200 EAs. For those FEDs covered by the G81-18 map series, an overview of the EA boundaries is presented. EAs are shown in greatest detail in the series G81-12 (rural EAs), G81-13 (EAs in CTs) and G81-14 (other urban EAs).

#### PUBLISHED MAPS

Most of the different types of census geostatistical areas, except for enumeration areas, are shown on reference maps in published bulletins. These maps are generally at a relatively small scale and show the boundaries of the areas with a minimum of background detail. To find the precise location of boundaries, it is often necessary to refer to the individual map sheets in the series discussed below.

Two Reference Maps bulletins are available showing 1981 Census geostatistical area boundaries. The first bulletin (Catalogue No. 99-907) presents a series of maps showing census divisions, census subdivisions, and census consolidated subdivisions for each province. The second bulletin (Catalogue No. 99-906) presents two series of maps showing the parts and component municipalities of CMAs and CAs.

For each of the 36 urban centres in Canada having a census tract programme, CT bulletins are published presenting general population, dwelling, household, family, social and economic data. Included in each bulletin is a map or maps showing the relevant census tracts.

In the case of those bulletins presenting census data for census divisions or federal electoral districts, the relevant small scale reference maps accompany the data.

#### INDIVIDUAL MAP SHEETS BY SERIES

In addition to the small scale reference maps included in the published bulletins, larger, more detailed maps are also available. Eight series of reference maps, at various levels of detail, are available for all the census geostatistical areas of the 1981 Census. These are as follows:

### Series G81-10: Provincial Maps

The maps in this series show the boundaries of census divisions and census subdivisions. Census metropolitan areas are also shown. Figure 1 shows part of one of these maps. Except for Quebec and Ontario, an entire province is shown on one map sheet. In the cases of Quebec and Ontario, seven and five maps, respectively, are required to show all of the CSDs for these two provinces. Map scales range from 1:250,000 in the most densely populated areas, to 1:4,000,000 in the Territories. An index map of all census divisions in Canada, at a scale of 1:5,000,000, is included in this series.

### Series G81-12: Rural Enumeration Areas

The basic purpose of this series is to show the boundaries of EAs in the rural areas of Canada. The National Topographic System (NTS) series of maps, at scales ranging from 1:50,000 to 1:500,000 (and smaller scales for the Yukon and Northwest Territories), are used for this series of census maps. The G81-12 series also shows the boundaries of census divisions, census subdivisions, and federal electoral districts (see Figure 2). A listing of the G81-12 series maps for each province is available on demand (see Supplementary References, page 142).

### Series G81-13: Census Tracts/Enumeration Areas

In this series, each map sheet covers one or more census tracts. Federal electoral district boundaries, enumeration area boundaries and street names, block numbers, and other physical features are identified (see Figure 3). The G81-13 series is available for the 36 tracted centres; i.e., the 24 CMAs and 12 tracted CAs. The published CT maps for each CMA and CA provide an index to the individual CTs available in this series. The scales of maps in this series vary considerably. The base maps of this series without EA boundaries are also available.

### Series G81-13A: Census Tracts/Enumeration Areas

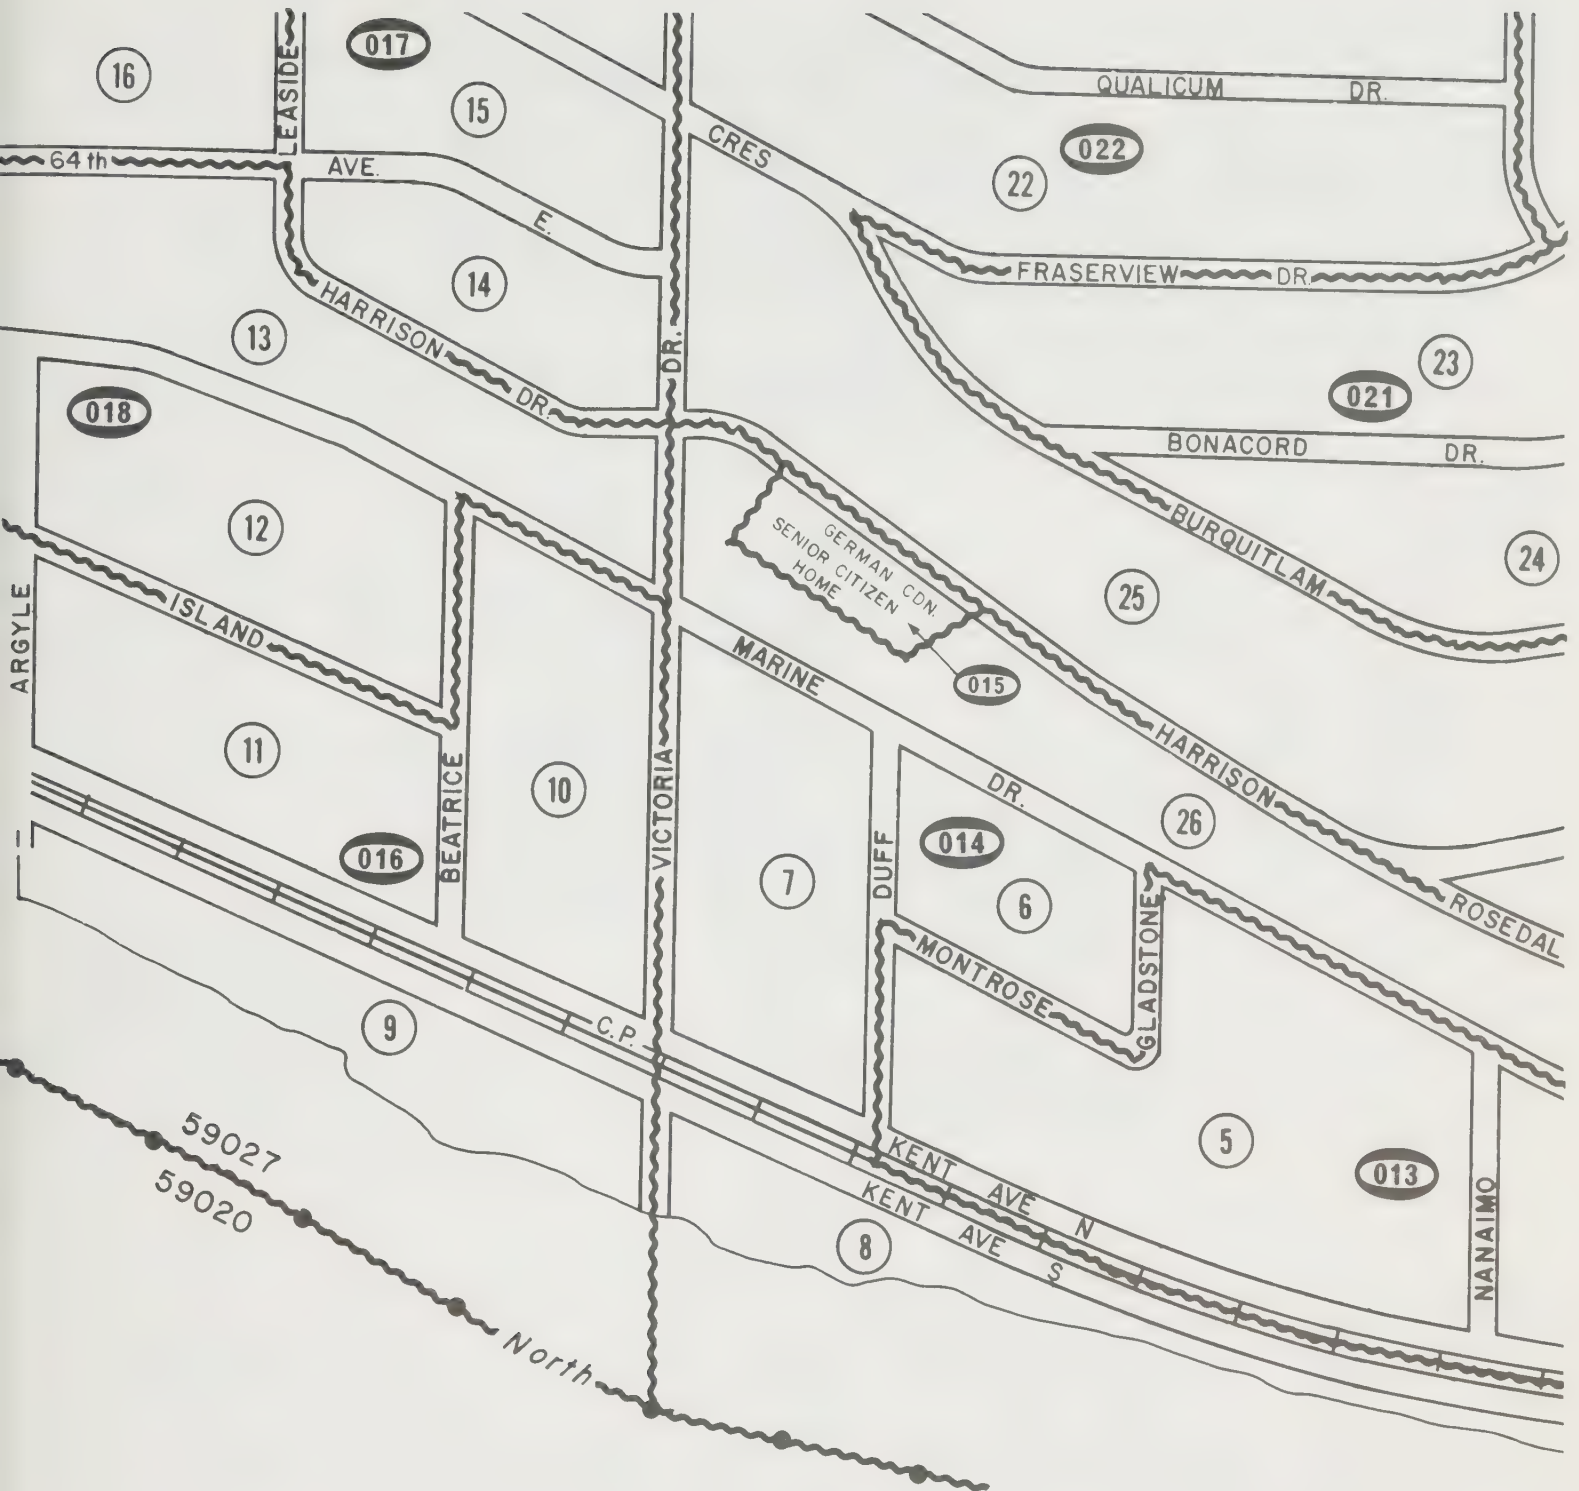

The maps in this series are the same as those in the G81-13 series. However, for selected centres these maps are reduced to a standard size and are available in booklet form.

 SR/SD - G81 - 13

Figure 3

Series G81-14: Urban Enumeration Areas

The maps in this series show the boundaries of EAs located in the smaller urban centres containing four or more EAs. Most of the urban EAs not shown in the G81-13 series are included in the G81-14 series. The G81-14 series consists of place maps with enumeration area boundaries and street names (see Figure 4). Map scales in this series vary. A listing of the G81-14 series maps for each province is available on demand (see Supplementary References, page 142). Place maps for some small urban centres containing less than four EAs are also available; however, the EA boundaries are not shown. These boundaries can be added on special request.

Series G81-15: Census Divisions/Census Subdivisions  
and Federal Electoral Districts/Enumeration Areas

This series is provided by the Geographical Services Directorate, Surveys and Mapping Branch, Department of Energy, Mines and Resources. Complete coverage of the country consists of 41 map sets at 1:500,000, five regional map sets at 1:2,000,000 and one map of the Northwest Territories and Yukon at 1:4,000,000. A set consists of a map showing census divisions and census subdivisions and a map showing federal electoral districts and census enumeration areas.

The 41 sets at 1:500,000 consist of the NTS base maps and two overlays: Overlay No. 1 showing census divisions, census subdivisions, census metropolitan areas and census agglomerations; and Overlay No. 2 showing federal electoral districts and enumeration areas (see Figures 5 and 6).

The 41 sets cover the following areas:

- Atlantic Provinces - south of the 50th parallel
- Quebec (excluding Anticosti Island) - south of the 50th parallel
- Ontario - south of the 48th parallel
- Prairie Provinces and British Columbia - south of the 52nd parallel

In the case of the five regional sets, while census divisions, census subdivisions, census metropolitan areas, census agglomerations and federal electoral districts are shown for the entire region, enumeration areas are shown for that portion of each region not covered by the sets at 1:500,000.

The single map for the Northwest Territories and the Yukon shows census divisions, census subdivisions, federal electoral districts, enumeration areas and unincorporated places and, in addition, population figures are given for each geostatistical area shown (see Figure 7).

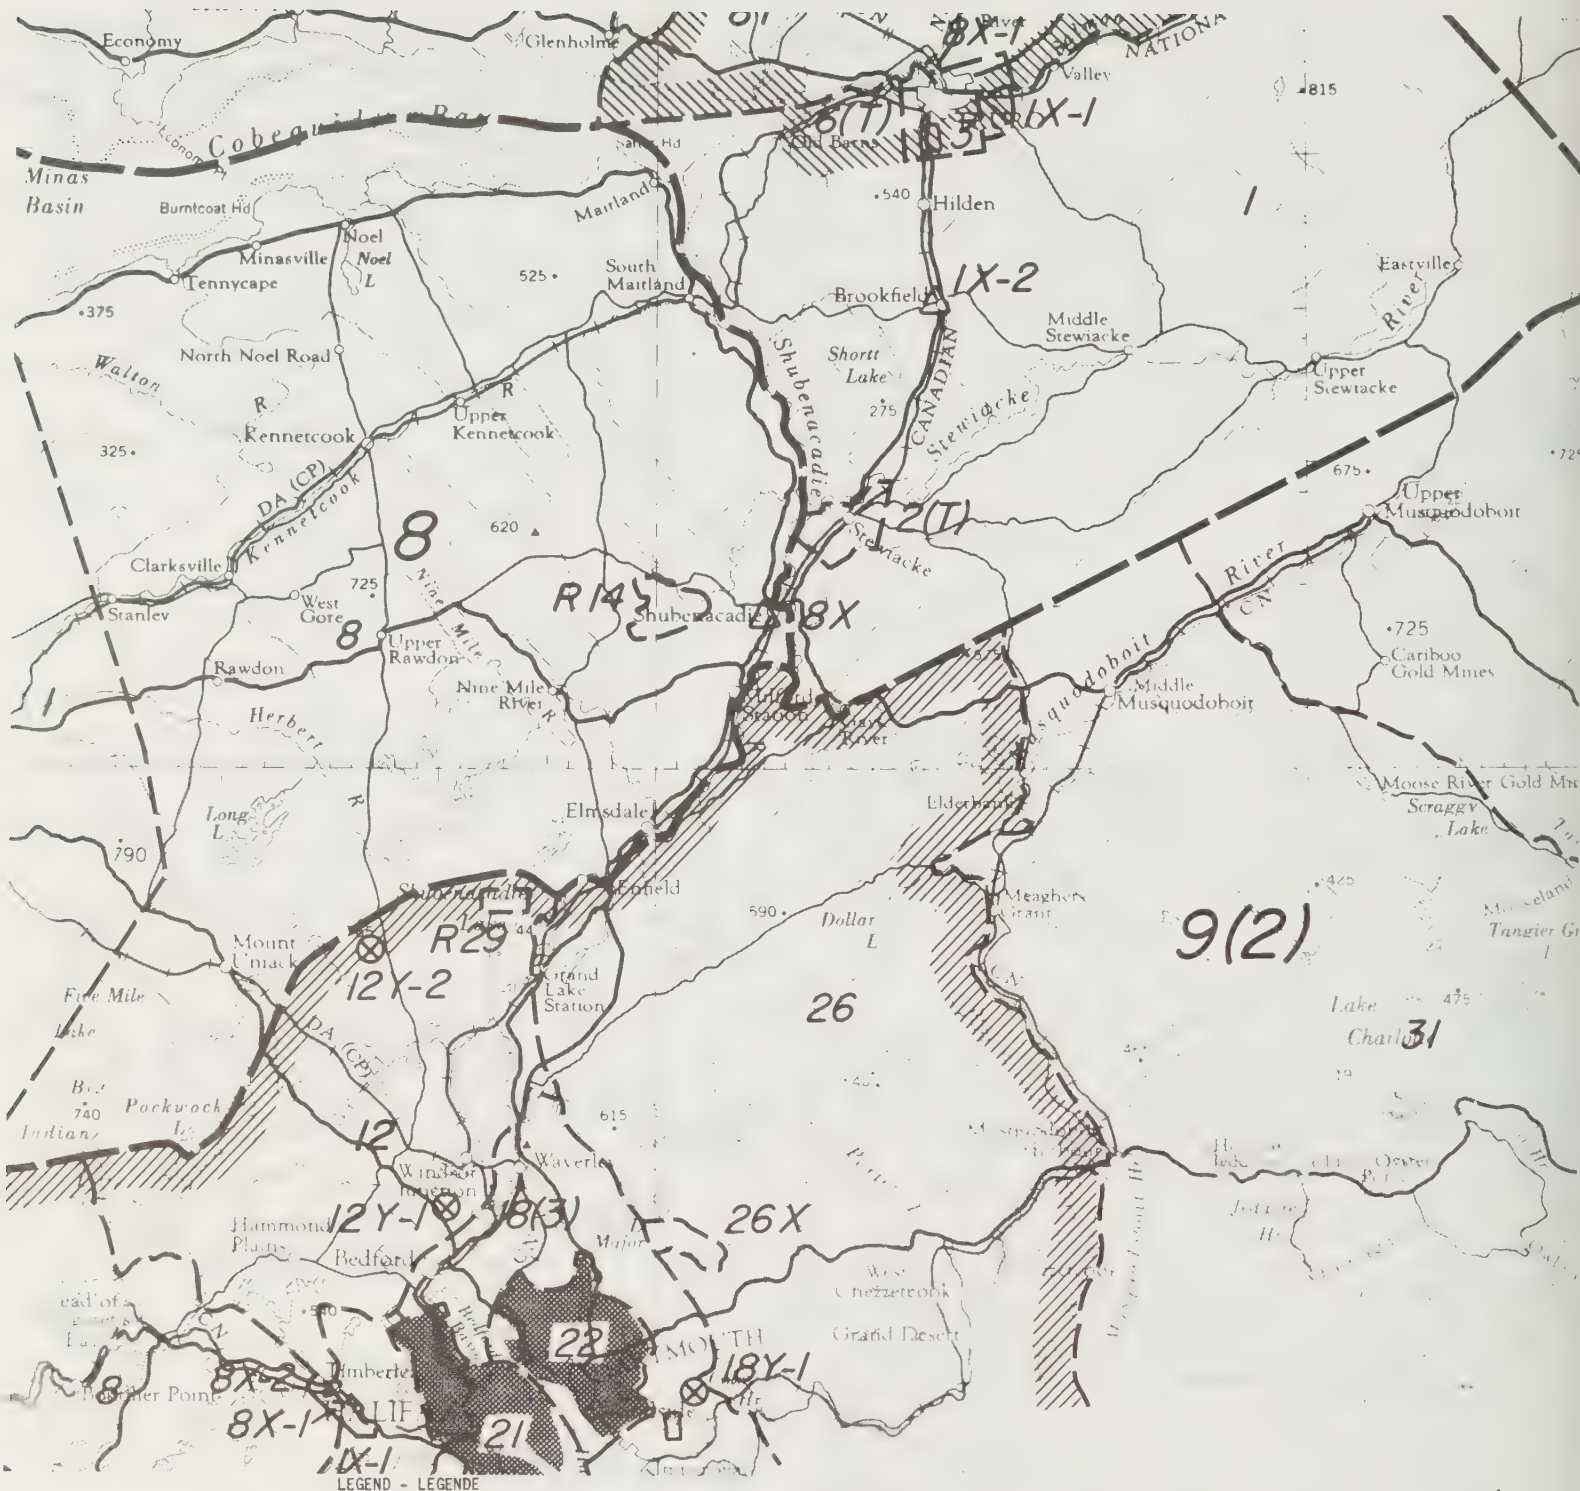

The G81-15 series will be available in the second quarter of 1984.

Series G81-18: Federal Electoral Districts/Enumeration Areas

All federal electoral districts are covered by this series. Each map sheet covers one FED. All map sheets are produced at a scale large enough to sufficiently depict the EA boundaries. The urban FED map sheets show census tract as well as EA boundaries (see Figure 8). The rural FED map sheets show the boundaries of census divisions, census subdivisions and enumeration areas (see Figure 9). An index map of the FEDs (1976 Representation Order) may be found in the 1981 Census bulletin (Catalogue No. 99-908).

Series G81-21: Provincial Census Tracts

The purpose of this series is to show the boundaries of all PCTs. Those CMAs and CAs containing census tracts are also shown.

National Topographic System maps are used as the bases for this series. Features such as water bodies, place names, roads and railroads have been retained.

Aside from provincial boundaries and the limits of census tracted CMAs and CAs, no other geostatistical areas (e.g., census subdivisions or enumeration areas) are shown on this series. Users wishing to identify component EAs of PCTs must refer to the 1981 Enumeration Area Reference Lists for Provincial Census Tracts (Catalogue Nos. 99-914 to 99-917) for this information.

Note: Maps are counted twice if they present two provinces.

\* Some map sheets show areas in two or more provinces.  
Complete coverage of Canada on the G81-12 series comprises 1,048 maps.

\*\* Northwest Territories and Yukon 1:4,000,000.

### MAP PRICES AND MEDIA

The following prices have been set for the reference maps of the 1981 Census:

Index maps - FED, CD, CMA/CA, CT	\$ .50
Series G81-13A	per each page \$ .50

(one booklet for each CMA or CA, total  
cost determined by the number of pages)

Series G81-10, 12, 13, 14, 15, 18, 21 per map sheet on:

Ozalid paper	\$ 1.00
Ozalid cloth	\$12.00
Intermediate film	\$ 8.00

### HOW TO ORDER

Two options are available to users when identifying the maps required. Requested maps may be identified by:

- (i) listing the reference numbers of map sheets using the lists of available maps or using the index maps available; or
- (ii) identifying the area required by place name or code.

The series number and medium desired should be specified for all maps ordered. To help speed the processing of the orders, the maps required should be listed in a logical sequence; i.e., in series order, by province, by NTS map number order, etc. (see sample order, page 144).

The time required to supply maps on demand varies according to the map series, the volume and the media required. When an order is filled, an invoice will be sent to the purchaser. Generally, prepayment will be required for all orders exceeding \$1,000.00.

### SUPPLEMENTARY REFERENCES - AIDS TO ORDERING MAPS

The following will aid users in identifying maps or codes for use in ordering maps:

The 1981 Census Place Name Reference Lists identify all census subdivisions and unincorporated places in Canada and identify, for each, the relevant NTS map number, G81 map series, latitude and longitude, Standard Geographical Classification code, and, in the case of unincorporated places, FED/EA number(s).

The Enumeration Area Reference Lists (Catalogue Nos. 99-909 to 99-918) identify the relationship between and among the various census geostatistical areas. These lists identify the enumeration areas found within each CD, CSD, FED, CMA, CA, CT, PCT, urban area, etc.

Users wishing to identify the base maps appropriate to their request may wish to refer to the document "Map Coverage of Provinces with Enumeration Areas for the G81-12, G81-13, G81-14 and G81-18 Series" or to the document "Listing of Base Maps With Enumeration Areas for Each Province by Federal Electoral District".

All the documents mentioned above will be available through the nearest Statistics Canada Regional Reference Centre.
